

Medical Benefits

The institute clinic provides primary healthcare services to students, staff, and faculty of the institution. This includes conducting medical examinations, diagnosing illnesses, and prescribing medications. The Institute clinic maintains accurate medical records of all patients, including medical history, diagnosis, treatment plans and prescription.

Apart from the facility above, IIT Palakkad has signed MoU with five nearby hospitals which provide out-patient consultations. Faculty and Staff members and their listed dependents may use these facilities and services available without any charge
